

Spend more time with patients, and less time doing paperwork.

Stay on top of every referral, result and letter, even on your busiest days. Document Assistant uses AI to automatically extract and prepare key details for filing into Best Practice.

Most practices spend **5 or more hours a week** sorting and filing documents*. Document Assistant removes the manual effort of sorting medical correspondence so your team can focus on patients, not paperwork.

One click into Best Practice

Files doctors' inbox or investigations directly into the patient record.

Save hours each week

Documents are extracted and queued automatically.

Security for peace of mind

Built on HotDoc's SOC2 audited platform.

Everything in one place

Built in HotDoc, simple to activate, easy to learn.

HOW IT WORKS

Duplicate detection means you'll never import the same document twice.

Auto-archive to keep your folders tidy.

Accurately extracts key details, e.g. patient name, DOB, date, sender, practitioner and subject.

Keep data secure with Australian-hosted, compliant handling.

“Experience AI efficiency with human oversight

“[It's] Very easy to use, which I like, and I like the fact, because I was a bit wary of AI, that you still have that control over it... you can flick through and look at it before you actually submit it.”

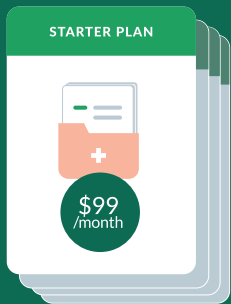

Peel Health Care, Tamworth, NSW

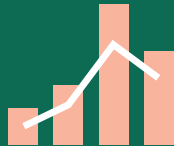

PRICING

Time is money. Why not save both?

Document Assistant is priced by volume, so you're never paying for capacity you don't use.

Choose one of four plans to fit your practice, starting at only \$99/month.

Go over in a busy month and extra documents are simply billed as you use them, so you're never locked out.

Every plan includes a 30-day free trial.

Save hours a week with documents extracted and queued automatically.

“More time for your never-ending to-do list

“I had 40 documents in there and it took me less than a minute to process all of them to the patient file.”

**Lisa, Reception Lead,
The Village Medical
Practice Harrisdale**

No surprises at the end of the month.

Document Assistant usage sits in the HotDoc Dashboard your team already uses.

Know how many documents your practice has processed and where you'll land by month's end, so spend stays predictable. We'll also send you notifications when you hit 85% and 100% of your usage. As your needs change, you can switch tiers at any time from within the Dashboard.
