

Getting Started with Health Wallet

1 Open Wallet in HotDoc App

Activate your Wallet

- In the HotDoc app, select **Wallet** from the bottom menu, then select **Get started**.
- Read how Health Wallet works, then select **Activate Health Wallet** to agree to the Terms of Use and Privacy Policy

2 Confirm your password

Setup your Wallet

- Enter your current HotDoc password, then select **Continue**.
- If your password doesn't meet the stronger security requirements, please create a new one by following the prompts.

3 Set up extra security

Turn on email MFA verification

- Select **Enable Email MFA**: a one-time code will be emailed to you each time you sign in.
- Enter the 6-digit code sent to your email, then select **Continue**. The code expires after 5 minutes.

Already set up MFA on your HotDoc account? **You can skip this step.**

4 Create your Health Wallet PIN

Add a 4-digit PIN

- Create a 4-digit PIN just for Health Wallet. Avoid repeated or sequential numbers.
- Re-enter your PIN to confirm.
- If your device supports it, select **Enable Face ID / Fingerprint** for faster access next time, or **Skip** to set this up later.

5 Add your first script

You're ready to start using Wallet

- Select **Add script** to start storing your prescriptions in Health Wallet.
- For e-scripts, click on your script link via SMS or email to directly import to the Wallet. For paper script, enter the unique code under eRX barcode directly.
- Once uploaded, set a reminder to make sure you never forget a refill again.
